班別： LKCam

低班親子旅行日-見聞及趣事

“We are having school picnic this Friday” had been said by Ali throughout the week. She had always been counting down for the day. The day had come, my little sweetheart wore a smile the whole day. Although there was shower, I never worried as I believed that God must be with us.

When we arrived, I was quite impressed. Wiseland Adventure was not large but it included lots of activities which kept our kids busy with easy supervision. It was definitely a well-sized playground for the kids. I was so pleased to hear the children’s laughter and see their unitedness during the class games with teachers. After class games and photo-taking, I started to explore with Ali. First, she went to ride the toy pony. There was another surprise for her as she met her best friend of last year. Since then, she and her buddy stayed together to join other kids to play bubbles and archery, dance, make scarecrow, picture and bounce in the castle. Time flew. It almost came to the end of the picnic but we still had few activities that hadn’t joined. On the way back, Ali kept on saying, “ I am very happy today.” Not only Ali, I also treasured this picnic as I could feel the caring of the teachers, the joyfulness of the children and the kindness of the Sisters. My childhood in this kindergarten was recalled when I was having a chance to take picture with my kindergarten headmistress.

Thank you the school members for planning and organizing this amazing picnic. We are looking forward to the school picnic of next year.
